

GROUND ZERO®

GERMAN ENGINEERING

2020 Product Information

URANIUM Series loudspeaker system GZUC 165.2SQ / GZUC 165.2SQ-ACT

The URANIUM series is made for the demands of music enthusiasts with serious audiophile expectations at a reasonable price level. After a long lifetime of the now discontinued speaker systems, GROUND ZERO introduces the brand new 2-way component loudspeaker system. During the development of the new speaker line-up, the main focus was set to the sound quality, power handling, visual appearance and usability...and thus on the unique essence of the URANIUM series

crossover not included for ACT model
