Kinetic Subwoofer Series

A robust 2" voice coil capable of handling up to an impressive 350 watts RMS

Experience bass like never before with Morel's groundbreaking new Kinetic subwoofers. Available in 8", 10", and 12" sizes, the Kinetic line is engineered to deliver deep, powerful bass with unparalleled authority as its new cost-effective subwoofer solution.

Innovative Engineering for Exceptional Performance

At the core of the Kinetic subwoofer lies a robust 2" voice coil capable of handling up to 350 Watts of RMS power. This substantial voice coil ensures high power handling while maintaining low distortion levels, even during the most demanding output levels. The result is deep, accurate bass that remains clean and true to the original sound, allowing you to feel every beat without unwanted resonances.

Enhanced Durability and Precision

To guarantee sturdy and linear motion, Morel has woven tinsel wires directly into the suspension of the Kinetic subwoofers. This innovative design reinforces the structural integrity of the subwoofer, ensuring consistent performance and longevity. The integrated tinsel wires minimize mechanical stress and enhance the subwoofer's ability to reproduce low frequencies with precision, even after prolonged use.

Experience the Fusion of Power and Precision with Morel's Kinetic Subwoofers

Elevate your audio system with the Kinetic series, where cutting-edge technology meets best-in-class bass performance. Feel the depth, embrace the dynamics, and enjoy a listening experience that moves you like never before.

Key advantages

- A robust 2" voice coil capable of handling up to an impressive 350 Watts RMS.
- High power handling and low distortion levels, even during the most demanding output.
- Innovative integrated woven tinsel wires enhance durability and precise, long-lasting, low-frequency performance.
- Available in 8", 10", and 12" sizes

Specifications

MODEL	SIZE & CONFIGURATION	MIN / MAX POWER HANDLING (Wrms)	SENSITIVITY (2.83 V/1M) dB	FREQUENCY RESPONSE HZ
KS804	8" (220mm)	250 / 500	86.5	40 - 900
KS104	10" (263mm)	300 / 600	88	32 - 900
KS124	12" (305mm)	350 / 700	90	29 - 900
